for you and your family.

Ric discusses healthcare issues with a constituent after a recent meeting with local seniors

Ric on Healthcare:

“Federally Qualified Health Centers, also known as Community Health Centers, provide comprehensive healthcare to medically underserved and uninsured areas. These services include primary, oral, and mental health care. These health centers provide their services to all persons, regardless of age or ability to pay.

“Fees are determined on a sliding scale based on a family’s income and size. Community Health Centers provide a means for families to prevent and manage sicknesses, diseases, and chronic illness instead of relying on emergency room care.”

FL-08 Federally Qualified Health Centers
